## Plugging Boxes - Wall Box - 310 SERIES

The 310 Series Plugging Boxes are recessed wall mounted enclosures designed for the temporary connection or electrical devices in interior or exterior applications.

## Plugging Boxes - Floor Box - 362 SERIES

The 362 Series Plugging Boxes are recessed floor mounted enclosures designed for the temporary connection of electrical devices in interior installations where up to two devices are required.

## Plugging Boxes - Floor Box - 364 SERIES

The 364 Series Plugging Boxes are recessed floor mounted enclosures designed for the temporary connection of electrical devices in interior concrete pour installations where up to four devices are required.

## Lens Downlites - 2608 & 2612

Cole incandescent lens downlites provide efficient illumination combined with durability to withstand exposure to the weather and physical abuse. Several accessory options are available to tailor fixtures to particular job requirements. These fixtures are particularly suitable for application in canopy areas, corridors, stairway landings, loading areas, and other areas where durability carries a special premium.

For more information on our capabilities please contact your local Cole representative.

## Walkway Lighting - Steplites - 157 SERIES

This compact Steplite with its incandescent and fluorescent lamp options is our most popular series. It is appropriate in a variety of interior or exterior locations. The rugged construction, engineering excellence, and quality make these fixtures ideal for specification in most public areas.

## Walkway Lighting - Steplites - 158 SERIES

The 158 Series of Steplites is a low profile site fixture with incandescent and fluorescent lamp options. It is appropriate in a variety of interior or exterior locations. The rugged construction, engineering excellence, and quality make these fixtures ideal for specification in most public areas.

## Walkway Lighting - Steplites - 159 SERIES

The 159 Series of Steplites is an extremely compact, low profile, incandescent site fixture ideal for applications such as step risers. Its width allows relatively wide light distribution to the side in a variety of interior or exterior locations. The rugged construction, engineering excellence, and quality make these fixtures ideal for specification in most public areas.

## Walkway Lighting - Steplites - 2156 SERIES

The 2156 is our largest Steplite with incandescent or fluorescent lamp options. Its width allows relatively wide light distribution to the side in a variety of interior or exterior locations. The rugged construction, engineering excellence, and quality make these fixtures ideal for specification in most public areas.

## Walkway Lighting - Steplites - 2159 SERIES

The 2159 Series of Steplites is a low-profile fluorescent site fixture for low applications. Its width allows relatively wide light distribution to the side in a variety of interior or exterior locations. The rugged construction, engineering excellence, and quality make these fixtures ideal for specification in most public areas.
